Season Report of the Bangalore District for the month of September 1884.

Rain-fall.—Three inches and 12 cents of rain were gauged at Head-quarters. The rain-fall was general in all the taluks except Dodballapur and Hoskote.

State of the Crops.—The standing crops which were withering from want of rain were much benefited by the showers which fell towards the latter end of the month, but those that were sown earlier in the season have been lost. Ragi, ballar and horse-gram were sown.

Public Health.—Good generally. Eight deaths from cholera during the month. There were 619 deaths from all causes against 651 in July, being a decrease of 32.

Cattle.—Healthy, but poor in condition from want of pasturage. 2,464 head of cattle died during the month against 1,984 in the previous month; of these, 242 were killed by wild beasts. The increase of mortality is attributable to want of water and fodder.

Lands.—Lands assessed at Rs. 585—2—7 were taken up for cultivation. There were no resignations.
